

# MOVE light

**The MOVE Mobility starter offer for public charging: With MOVE light, you can enjoy the familiar benefits of MOVE with no fixed subscription fee.**

Congratulations! You're already a seasoned electric motorist or have recently decided to purchase an electric vehicle. Whichever of these apply to you, you can enjoy the comforts, advantages and pleasures of the mobility of tomorrow, all while helping the environment and promoting sustainability.

You're probably able to charge your electric car easily and conveniently at home or at your place of work. Perhaps you've already had experiences with public charging, for example when planning a longer trip. Then you've no doubt discovered that this process can be quite complex due to the numerous different technical systems, billing procedures, tariff structures and apps.

As the operator of one of the best smart public charging networks in Switzerland, we present to you the MOVE light package. If you

- use public charging stations only rarely (max. twice per month)
- charge at home or at work and view public charging as a „backup option“
- drive a hybrid vehicle

then MOVE light is the optimal solution for your specific charging needs.

The public charging of your electric vehicle has never been so simple, so convenient and so close to hand. Moreover, with MOVE light you enjoy the numerous other benefits offered by the MOVE charging network.

- Only MOVE offers invoicing and credit card debiting after the purchase of services, meaning no more bothersome topping-up of prepaid accounts.
- Ready access to the major Swiss and European charging networks at competitive standard prices.
- Make use of reliable charging stations that are compatible with every type of electric vehicle, and many with fast DC 50 kW charging.
- MOVE is nationally and internationally networked thanks to our partners and third-party providers.
- Enjoy high-quality 24/7 customer support in German and French.
- Privileged access to charging stations.
- Green electricity guaranteed and inclusive.
- With the ‘Move – recharge your car’ app, it’s easy and convenient to locate all MOVE charging stations as well as stations on partner networks. The app is available for free on the iTunes Store and Google Play Store.
- No annual subscription fee.
- The system is user-friendly, safe and straightforward to operate, and the charging process is fully secured.

As a customer of the MOVE charging network, you also benefit from transparent and favourable conditions:

#### In Switzerland

- The charging card is a present.
- The tariffs on the MOVE network (charging stations with the MOVE logo) are:
  - MOVE park 1–11 kW:  
0.45 CHF/kWh
  - MOVE charge 12–22 kW:  
0.05 CH/min + 0.45 CHF/kWh
  - MOVE charge 23–59 kW:  
0.15 CHF/min + 0.59 CHF/kWh
  - MOVE charge 60–350 kW:  
0.15 CHF/min + 0.59 CHF/kWh

#### Abroad

- For all other compatible charging stations across Europe, the tariffs are:
  - Partner charging networks 1–22 kW:  
1.50 CHF + 0.05 CHF/min + 0.45 CHF/kWh
  - Partner charging networks > 23 kW:  
1.50 CHF + 0.15 CHF/min + 0.59 CHF/kWh

---

As you can see, it’s easier than ever to charge your car – even on public networks! And registering for the MOVE charging network is equally straightforward: go to [www.move.ch](http://www.move.ch) and fill out the form. Within a few days, you’ll receive your ready-to-use MOVE card, which you can use for your next public charging – no further payment or registration required.

Wherever you’re going, we wish you a safe journey.
